## ABOUT ME

Creative and detail-oriented UI/UX Designer and Frontend Web Developer passionate about crafting intuitive, user-centered, and visually engaging digital experiences. Skilled in user research, wireframing, prototyping, and responsive web development using Figma, HTML, CSS, JavaScript, and React. Dedicated to translating user needs and business goals into impactful visual solutions that enhance usability and user satisfaction. Actively **seeking internship opportunities in UI/UX Design and Frontend Development** to apply creative design thinking and technical expertise in a collaborative, innovation-driven environment.

## EDUCATION

### University of Colombo

Aug 2023 - Present

Bachelor of Information and Communication Technology Honours

### Mahinda Rajapaksha College Matara

2022

GCE Advanced Level Examination (Technology Stream - Engineering Technology)

Z score - 2.1034

## PROJECTS

### Travelo - Travel Website Landing Page - Figma

2025

Designed a modern, user-friendly travel booking landing page interface in Figma, combining aesthetic visuals with efficient navigation and usability.

### StyleNest - Clothing Store - Figma

2025

Designed a modern e-commerce web interface UI for a clothing brand, focusing on clean layouts, visual design, and seamless user flow.

### Eatzy - Food Ordering Mobile App - Figma

2025

Created an intuitive mobile app UI for online food ordering, emphasizing user-friendly navigation, attractive visuals, and smooth interaction flow.

### Eatzy - Food Ordering Web App - MERN Stack (Ongoing)

2025

Developing a full-stack food ordering web application using the MERN stack, focused on responsive design, smooth user experience, and efficient order management.

### To-Do App - React | CSS

2025

Designed and developed a minimal task management UI with clean layout.

### Tech Feed - Faculty News App - Figma | Android Studio | Java | XML | Firebase

2024

Designed and developed a faculty news app with interactive UI, smooth UX flow, and Firebase integration. that delivers real-time updates and event notifications, for dynamic content management

### QR Based Attendance Marking System - HTML | CSS | JavaScript | PHP | MySQL

2024

Designed and developed a web system as Mini Project using QR-based user interaction and responsive UI.

### Library Management System - HTML | CSS | JavaScript | PHP | MySQL

2024

Developed a web application to manage book inventory, user registration, and lending records with a responsive admin dashboard.
